

Addendum 2 - Questions

Looking for a Solution - Erate Eligible Category 2 Network Improvement

Amy Biehl High School FY 2018

This document is part of the complete request for solutions. Please read all four documents and any addendums that have been posted.

Questions

Review of questions from our vendor meeting on 2/12/18

1. What model Meraki WAP do you use?
 - a. MR32 and MR33
2. Do you want the switches stacked?
 - a. Yes so they can be managed as one unit.
3. Will we need to clean up the current patch cables?
 - a. It is required to the extent necessary to complete the project. Any additional clean up is considered and optional outcome. If you plan on this please include in your proposal.
4. If we respond to both 470's can we submit one proposal?
 - a. At the meeting I answered yes. However I will need to confirm this with our CPO. I will post when I have the answer.
5. Can you share a heat map of the current wifi system?
 - a. Yes, however I do not have one from the installer. I will create one and post it by the end of this week.

Clarification

I was unclear during our walk through. The hand off from the Internet provider will be fiber.
